

BC DevExchange

(SECURITY SYMPOSIUM 2019)

PAST, PRESENT AND FUTURE:

BC DevExchange geometry lesson

A fractal is

BC DevExchange Geometry lesson

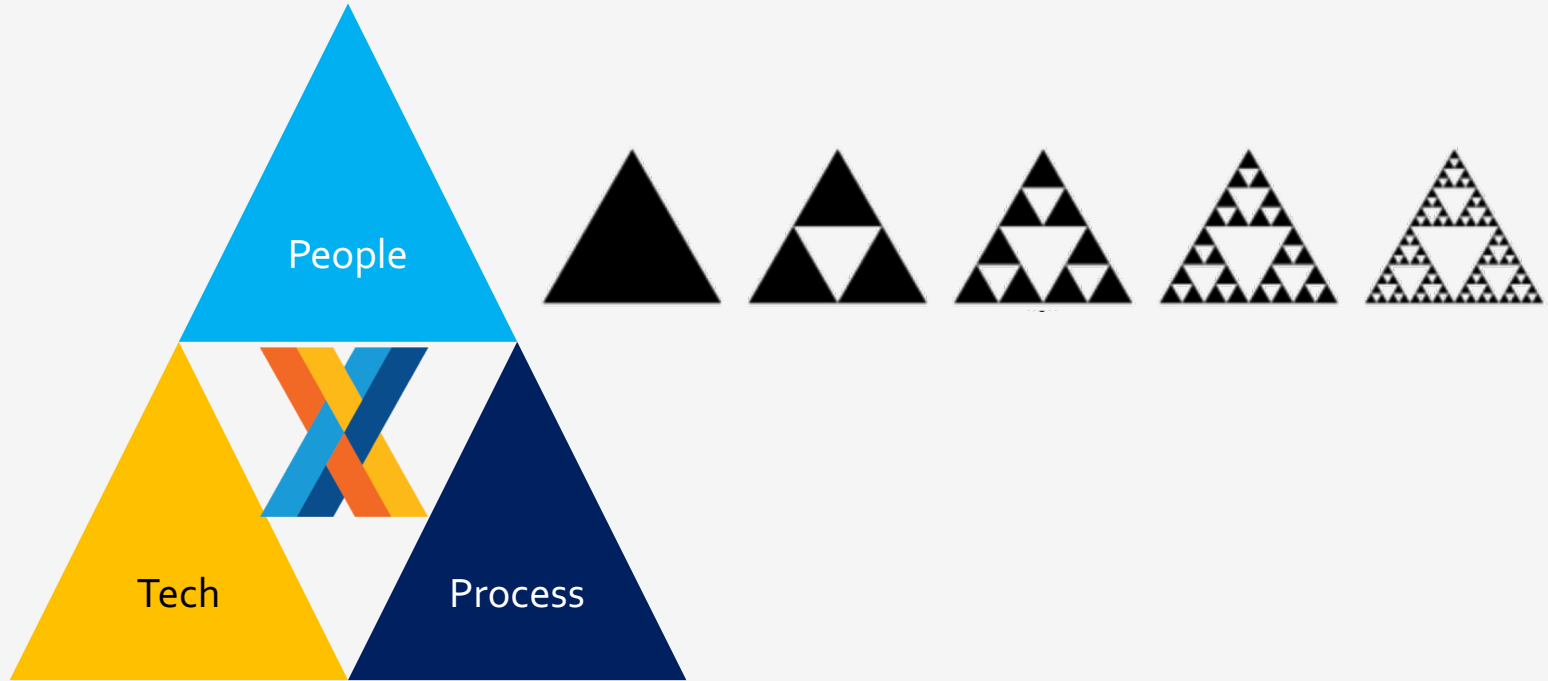

A fractal is an object or quantity that displays self-similarity, in a somewhat technical sense, on all scales. The object need not exhibit *exactly* the same structure at all scales, but the same "type" of structures must appear on all scales.

- ⚙ DevHub
- ⚙ Platform Services
- ⚙ Next Gen Security
- ⚙ Digital Trust Pathfinder

Next Gen Security Project

The ~~internet~~ told me...

“Forrester found that 80% of data breaches are initiated using privileged credentials, and 66% of organizations still rely on manual methods to manage privileged accounts.”

6 Best Practices For Increasing Security In AWS In A Zero Trust World

Louis Columbus Contributor @
Enterprise & Cloud
